Happy WENZDAY BATH Time!

Is your rest reserved only for the weekends?

In the middle of a busy week,
Wednesday is the perfect moment to pause, reflect,
and give yourself the recharge you truly deserve.

“Wednesday,
a Complete Pause for Myself”

The Wisdom of Korean Herbs, Reimagined for Modern Wellness

Hanbang is Korea's traditional medicine, rooted in the healing power of nature.

For thousands of years, herbal remedies have been used to restore harmony between body and mind — a timeless tradition that continues to this day.

Over the Wenzday reinterprets this ancient wisdom of Korean medicine, bringing it into the rhythm of modern rest.

Drawing on 17 years of clinical experience, our founder — a licensed Korean medicine doctor and Ph.D. in Oriental Medicine — carefully crafts each formula to help everyone experience true relaxation and recovery in their daily lives.

Our Collection of Rest

Our premium bath & body collection embodies our philosophy—offering a gentle pause to breathe and restore balance in the midst of a busy life.

We go beyond skincare, crafting formulations that awaken all the senses: visual pleasure that delights, scents that calm the mind, textures that softly embrace the skin, and sounds that deepen relaxation. Through these multisensory experiences, each product becomes a small ritual of comfort, healing, and recovery.

It softly resets both body and mind, guiding you beyond the midweek fatigue toward a moment of complete rest for yourself.
